

The material of this item is an uncoated print media, this means the ink will absorb into the material and the print will inherit the matt finish of the material creating a more natural vintage look with lower colour intensity.

Digital Packaging Print is only available on white and natural products.
As this is an uncoated substrate and artwork is printed directly onto the product via CMYK print with **no white** ink base, ink is absorbed into the product, giving the artwork a faded, vintage finish
